

Ahmed Swabah

Full-Stack Developer · AI Engineer · Prompt Engineer

Kozhikode, Kerala · ahmedswabah.dev@gmail.com · github.com/swabah · linkedin.com/in/sw-abah

SUMMARY

Full-Stack & AI Developer focused on building scalable, intelligent, and user-centered web applications. Specialized in modern JavaScript ecosystems (Next.js, Node.js, Express, React, Bun, TailwindCSS) and AI-powered systems using Hugging Face, Ollama, and advanced prompt engineering. Experienced across cloud-native and backend infrastructure (AWS, Docker, Prisma, Supabase, Firebase, MongoDB, MySQL). Open to collaboration, product innovation, and ambitious ideas.

CORE SKILLS

Frontend	Next.js, React, TypeScript, TailwindCSS, shadcn/ui, Framer Motion, Vite
Backend	Node.js, Express, Bun, REST APIs, Prisma, Server Actions
Databases	PostgreSQL, MongoDB, MySQL, Supabase, Firebase
AI / ML	Hugging Face, Ollama, Prompt Engineering, AI Integrations, Face Recognition
Cloud / DevOps	AWS, Docker, Vercel, Cloudinary, CI/CD
Tools	Git, GitHub, VS Code, Postman, Figma

SELECTED PROJECTS

Present AI · present-ai-psi.vercel.app

AI-powered event asset management & discovery platform. Distributes photos to guests instantly via Face Recognition.

Stack: Next.js, TypeScript, AI, Face Recognition

Royal Jet Travels · royaljet-travels.vercel.app

Travel agency platform with package management, PWA support, and Cloudinary media pipeline.

Stack: Next.js 16, React 19, Supabase, Tailwind v4, PWA

Kryvo Store · kryvostore.vercel.app

Storefront e-commerce application powered by Shopify.

Stack: Next.js, Shopify

IMS · ims-phi-three.vercel.app

End-to-end platform for managing institutions.

Stack: Next.js, TypeScript, TailwindCSS

Green Room · trizo-greenroom.vercel.app

Festival management system for events and crew coordination.

Stack: Next.js

Maznavi · maznavi.vercel.app

Community platform for sharing poems and articles.

Stack: React, Express, TailwindCSS

Count Corner · countcorner.vercel.app

Community platform where anyone can share the count of their swalath.

Stack: Node.js, Express, React

REST API (TS) · github.com/swabah/REST-API-TS

Production REST API with auth and CRUD operations.

Stack: Node.js, Express, TypeScript, MongoDB
