Ahmed Swabah

Full-Stack Software Engineer & SaaS Builder

ahmedswabah.dev@email.com • swabah.vercel.app • github.com/swabah • linkedin.com/in/sw-abah • Kozhikode, Kerala, India

PROFESSIONAL SUMMARY

Full-Stack Software Engineer & SaaS Builder specializing in modern TypeScript/JavaScript ecosystems with hands-on experience architecting and shipping 20+ production-grade web applications. Deep expertise in scalable multi-tenant SaaS architectures, real-time event pipelines (SSE, Redis), type-safe data layers (PostgreSQL, Neon Serverless, Drizzle ORM), and AI systems. Proven track record taking products from zero to one with end-to-end ownership across frontend, backend, background jobs, and cloud infrastructure.

EXPERIENCE

Co-Founder • Luminexis · Full-time
Jun 2025 – Present | Kozhikode, Kerala, India · Hybrid
Skills: Project Management, System Design, AI Product Strategy, Architecture
- Directing core software architecture and engineering strategy for intelligent AI products.
- Leading developer workflows, defining technical roadmaps, and establishing agile delivery cycles.

Full Stack Developer • Galamine AI · Full-time
Sep 2025 – Present | India · Remote
Skills: Next.js 16, React 19, Node.js, Front-End Development, Supabase
- Architecting responsive, high-performance web applications and backend microservices.
- Integrating seamless AI workflows and optimizing client-side performance.

Web Developer • Trizo Creatives · Part-time / Contract
Sep 2023 – Oct 2026 | Kerala, India · Hybrid
Skills: Node.js, React.js, Next.js, AI Integration, MySQL, PostgreSQL, Framer Motion
- Engineered client-focused digital web platforms incorporating interactive motion design and scalable backends.
- Built multi-tenant modules and automated data pipelines across production web applications.

Full Stack Developer • upskillabs · Part-time
Mar 2025 – Present | Kerala, India · Hybrid
Skills: Next.js, TypeScript, Node.js, MERN Stack, REST APIs
- Delivered modular full-stack features and API integrations across client-facing applications.

Developer • Amri Foundation · Part-time
Jun 2023 – Jun 2024 | India · Remote
Skills: JavaScript, HTML5, CSS3, Web Development

EDUCATION

Bachelor of Computer Applications (BCA)
Indira Gandhi National Open University (IGNOU) • Jan 2022 – Jan 2026

TECHNICAL SKILLS

Frontend : Next.js 16, React 19, TypeScript, Tailwind CSS v4, shadcn/ui, Radix UI, Framer Motion, HTML5 Canvas (Konva)
Backend & APIs : Node.js, Express.js, Bun, REST APIs, Server Actions, Server-Sent Events (SSE)
Databases & Cache: PostgreSQL (Neon Serverless), Upstash Redis, Drizzle ORM, Supabase, MongoDB, Prisma ORM
Core Systems & Auth: Better Auth (2FA / Email OTP), Inngest (Async Job Queues), Razorpay, Resend, Cloudinary
DevOps & Cloud : AWS (S3, Rekognition), Docker, Vercel CI/CD, Git, Vitest, Biome, Testcontainers
Other : System Architecture, Multi-Tenant SaaS, PWA, Agile Development, Clean Code

SELECTED PROJECTS

Greenroom — Festival-Management SaaS & Operating System
An end-to-end B2B2C SaaS platform serving as a centralized operating system for festival organizers to manage ticketing, complex multi-stage scheduling, team coordination, and payments.

- Frontend: Built a highly interactive, accessible, and animated UI using Next.js 16, React 19, Tailwind CSS v4, and Radix UI.
- Backend & Data: Architected a scalable, type-safe data layer with PostgreSQL (Neon Serverless), Upstash Redis, and Drizzle ORM.
- Core Systems: Integrated Better Auth for secure role-based access, Razorpay for financial transactions, and Inngest for asynchronous background jobs (ticket generation, bulk emails via Resend).
- DevOps: Established robust CI/CD pipelines deploying to Vercel, with comprehensive testing via Vitest and localized staging using Docker.

Tech: Next.js 16, React 19, PostgreSQL (Neon Serverless), Upstash Redis, Drizzle ORM, Better Auth, Razorpay, Inngest, Tailwind CSS v4
GitHub: github.com/trizocommunity/greenroom | **Live:** trizo-greenroom.vercel.app

Present AI — AI-Powered Event Asset Management & Discovery Platform
Smart event photography platform that distributes photos to guests automatically via real-time Face Recognition.

- Automated facial recognition pipeline matching attendee biometric profiles across 50,000+ event photos in real time.

Tech: Next.js, TypeScript, Face-api.js, AWS Rekognition, Node.js, Express, PostgreSQL, Redis
GitHub: github.com/swabah/presentai | **Live:** present-ai-psi.vercel.app

Royal Jet Travels — Travel Agency Platform with PWA & Cloudinary Media Pipeline
Comprehensive travel booking platform featuring offline PWA capabilities and dynamic package customization.
Tech: Next.js 16, React 19, TypeScript, Tailwind CSS v4, Supabase, Cloudinary, Workbox
GitHub: github.com/galamine/royaljet-travels | **Live:** royaljet-travels.vercel.app

IMS — Institution Management System
Centralized platform for educational institutions managing multi-role administrative workflows and records.
Tech: Next.js, TypeScript, Tailwind CSS, PostgreSQL, Prisma ORM
GitHub: github.com/swabah/IMS | **Live:** ims-phi-three.vercel.app

KRYVO Store — Headless E-Commerce Storefront
Custom high-performance e-commerce storefront integrated with Shopify Storefront API.
Tech: Next.js, React, Tailwind CSS, Shopify Storefront API, Cloudinary
GitHub: github.com/kryvostore/kryvostore.in | **Live:** kryvostore.vercel.app

Expense Tracker — Modern Expense Tracking App with Neo-Brutalism Design
Real-time financial management application with category breakdown and interactive analytics charts.
Tech: React, Bun Runtime, Express.js, Tailwind CSS, Recharts
GitHub: github.com/swabah/expense-tracker

REST API (TypeScript) — Production-Ready Enterprise REST API Architecture
Clean-architecture backend API featuring JWT authentication, role authorization, rate limiting, and CRUD operations.
Tech: Node.js, Express, TypeScript, MongoDB, Jest
GitHub: github.com/swabah/REST-API-TS
